FlexiFast™
Universal Docking Station

Introducing the **FlexiFast** Universal Locking Docking Station, the ultimate solution for secure and efficient mobile fume cupboard connections.

- Integral crystal clear transparent locking door entry supplied with spare key.
- This Universal innovative system revolutionises how you manage and connect your mobile fume cupboards in seconds.
- Quick release mechanism and universal compatibility, the **FlexiFast™** effortlessly accommodates any mobile fume cupboard.
- Robust powder coated steel, sleek locking feature with integral concealed door opener, ensures tamper free, even in high traffic environments.
- Designed with both safety and convenience in mind, the **FlexiFast™** modular construction allows for easy customisation to fit any lab layout.
- Boost your lab's productivity and security with the **FlexiFast™** Universal Locking Docking Station - where flexibility meets dependability.
- The **FlexiFast™** is manufactured from 18swg zintec steel powder coated smooth white RAL9016.
- Quick release couplings for Water and Gas (Male & Female supplied).
- 13 Amp switched socket outlet and complete assembly earthed for safety
- Restraining bracket and Waste connection

Reviewed by CLEAPSS for Schools & Colleges in England and Wales and SSERC for Scotland. Perfect for factory integrating into Teacher Walls, Demonstration pods, Serviced bollards, Teachers desks / benches and all science laboratory installations.
